

Allelektronik becomes a part of the Regin Group

Regin Group announced today that it has acquired Allelektronik i Hultsfred AB. Allelektronik is one of Regin's key suppliers as contract manufacturer of electronics. The highly automated and efficient production is based in Hultsfred, Sweden.

"The acquisition of Allelektronik creates a more resilient supply chain with high delivery precision, quality and flexibility for our customers. In addition, Allelektronik strengthens our production capacity in Sweden which is an important part of our sustainability work to shorten transportations to customers", says Fredrik Wiking, CEO and President Regin Group.

Nicklas Eriksson, co-owner, together with co-owners Tim Eriksson, Mats Landström and Fredrik Nilsson, have with this transaction secured a long-term and stable platform for Allelektronik's continued growth.

"Regin was the natural choice of partner to continue the journey of Allelektronik. Our partnership goes a long way back and being a part of the Group creates even better conditions for strengthened collaboration and increased production of market leading products for a sustainable future", says Nicklas Eriksson.
