

Regin Controls Finland Oy has divested the project business to BMS Control Oy

Regin Group has been operating in Finland since 1947, and under the subsidiary Regin Controls Finland since 2015, always with a focus on energy optimization and building automation projects. As of August 2022, the Regin Group has divested the project business to BMS Control Oy which is founded and owned by Joel Piilola, former Managing Director of Regin Controls Finland Oy.

The new company BMS Control Oy will primarily focus on project business as a system integrator and a certified Regin Partner. Regin Group is a manufacturer of building automation products and systems, and the focus on the Finish market will continue from the Swedish sales company Regin Controls Sverige AB.
